

WHAT: Construction Projects at Water Treatment Plant in Holiday Park

WHEN: Summer/Fall 2019

WHERE: Outbound traffic from Victoria Park

Two large scale construction projects will take place at the Water Treatment Plant starting this summer: the Transfer Pumping and Electrical Upgrade Project (already underway) and the Enclosure and Site Security Project (starting in July 2019).

1) The Transfer Pumping and Electrical Upgrade Project includes the construction of the fully automated transfer pumping system to convey water from the water treatment plant clear wells into the adjacent reservoir. The project also includes essential electrical upgrades and the addition of standby power generators which will improve the entire water treatment plant reliability and redundancy. The project is expected to take two (2) years to complete and might cause short traffic interruptions 3 or 4 times each day for vehicles leaving **through the lane from Victoria Park and Riversdale Pool Parking Lot to Avenue H South.**

- A barricade will be installed to restrict the traffic going through the lane for 3-5 minutes a few times a day.

2) The Enclosure and Security Upgrades Project includes the construction of a perimeter security fence and guardhouse for improved site security to safely supply water to the citizens of Saskatoon. This project is expected to take one (1) year to complete and will cause traffic interruptions during the fence installation along the **outbound traffic lane from Victoria Park and Riversdale Pool Parking Lot to Avenue H South.**

- Heavy machinery will be used to complete the work and may result in noise or vibration.
- Barricades and signage will be installed to restrict traffic.
- Car access will be limited.
- More details will be provided when they become known.

How you can help

- Plan for short delays.
- Stay clear of the work zone for your safety and the safety of workers.
- Obey all traffic signs.

Common questions

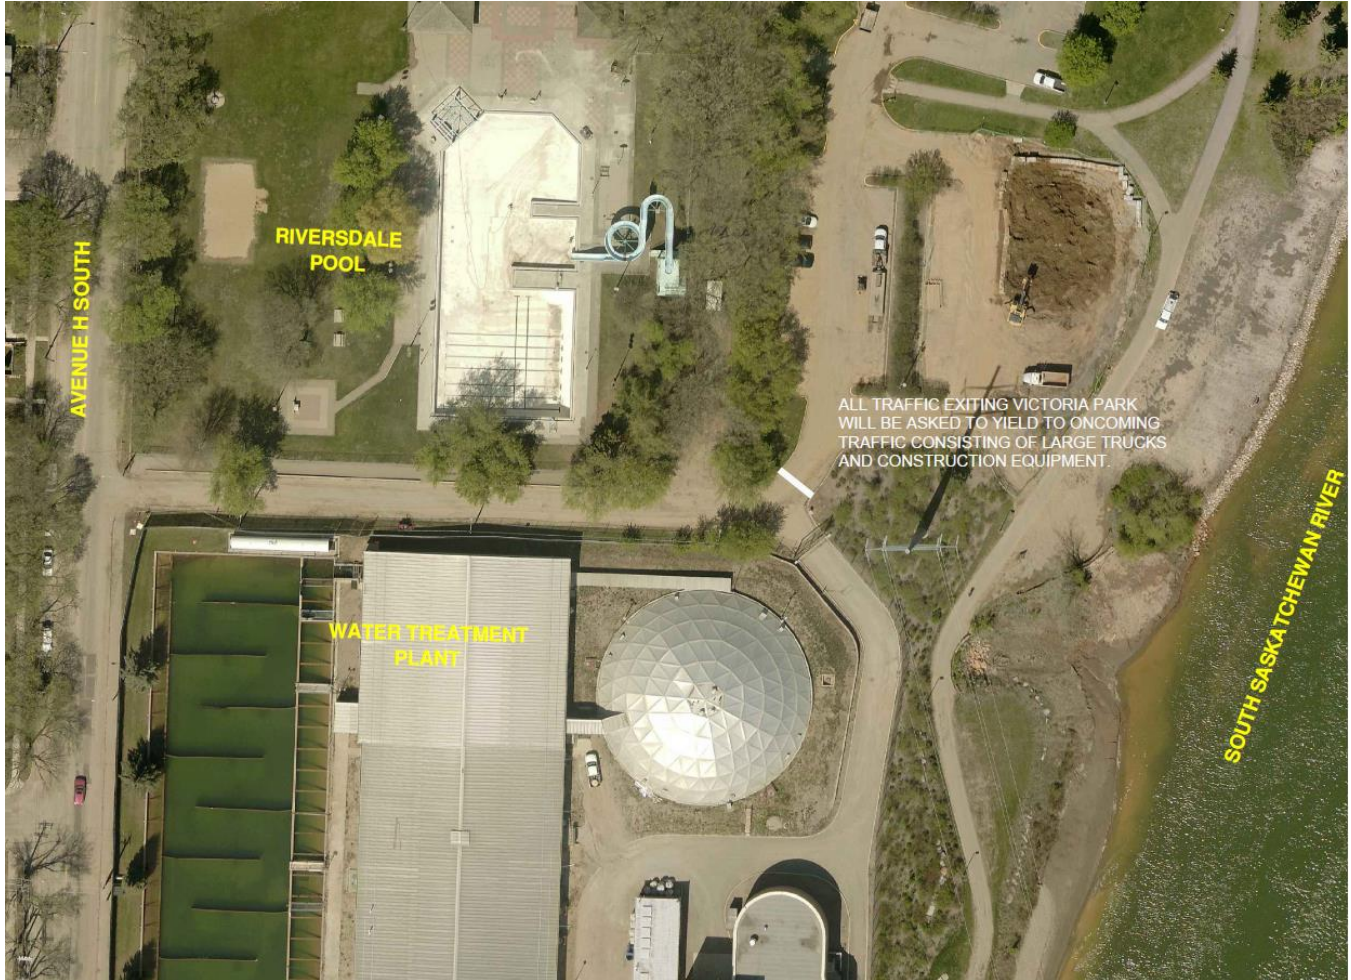

Will there be traffic and street/driveway access restrictions?

Yes, roadway access will be restricted for short periods a few times a day.

Will power service be affected?

No. Power disruptions are not anticipated.
