# Garage/Yard Sale Signs & Real Estate Open House Signs

The **Community Standards Division** is responsible for regulating temporary signs such as garage sale, yard sale, or real estate open house signs on public lands such as City right-of-way. The following information summarizes the most significant regulations for placement of these types of signs. Please refer to *The Temporary Sign Bylaw* for a complete overview of all temporary sign regulations.

## What is a Temporary Sign?

A temporary sign is intended to be displayed for a short period of time on permitted city buffer strips and right of way areas, in conjunction with a specific event such as a garage or yard sale, or real estate open house. The only temporary signs permitted in residential areas are those related to a garage sale or open house, and election signs.

Garage Sale and Open House signs must meet to the following regulations.

## Design Restrictions for Temporary Signs

Signs must conform to the following requirements:

- Must have no more than two sign faces;
- The top of the sign must be no higher than 1 metre above grade;
- The total sign face area must be no larger than 0.6 square metres and must be self-supporting (must not be attached to any City property such as fences, bus shelters, trees, street light poles or traffic signal poles);
- Must not be animated, illuminated, rotating, flashing or have moving lights or other electrical features;
- Must not have attachments such as balloons, kites, an electronic message centre or inflatable devices;
- Must not resemble traffic control devices;
- Must not be placed in such a way as to create a potential hazard to vehicular or pedestrian traffic and must not obstruct the view of any portion of a traffic control device or signal.

## Placement of Temporary Signs

Temporary signs are permitted on certain city boulevards (see list of prohibited roadways in following section) subject to the following restrictions.

- **Signs are not permitted on centre medians or traffic islands**
- Signs must be located as follows:
  - At least 2.0 metres from the curb (6.0 metres from nearest driving lane if no curb)
