

**Access Transit**  
**Subscription Policy**

Subscription services are provided if a customer takes the same trip at least **once** (1) weekly for a minimum of **four** (4) weeks for medical trips, work, post secondary education or church.

**Medical trips are limited to:**

Medical Doctors, hospitals, laboratories, day hospital programs, prescribed occupational and physiotherapists, or other treatments covered by Saskatchewan Health.

Subscription service is based on service availability, and is automatically cancelled on Statutory Holidays (a regular booking is then required).

Booked times may need to be adjusted to accommodate additional subscription trip clients

Note: The rationale for limiting subscription trips is to ensure the availability of adequate pre-booking opportunities given limited resources and the fact that service demand is greater than what Access Transit can provide. Access Transit operates under a 50/50 Subscription/Demand Booking as per in-house operating procedure to ensure fairness for all registered customers.
