

Exhibition Local Area Plan Summer Homework Assignment

More Exhibition Local Area Plan (LAP) public meetings on additional topics will be scheduled for Fall 2019. A topic we plan to discuss with local stakeholders this Fall is the **Impact of Major Events** on the area and we need your help in gathering information. Think of it as a summer homework assignment!

Documenting the impact of major events, by YOU, the local residents, will help identify issues that may need to be addressed or modified. These can be **positive or negative** impacts. Make notes and take photos! Use the other side of this flyer to record observations. Your participation and feedback is critical.

Your assignment (be sure to mark down the **date/time/location** of specific issues):

- If you attend any local major events this summer, take pictures and write down your thoughts. Did you have fun and were others enjoying themselves? Was the event well-attended? Did event organizers seem prepared?
- Pay attention to traffic during local major events. Was anyone directing traffic? Were there locations where someone should have been directing traffic?
- Photograph and record any negative impacts, such as traffic, parking, litter, etc.
- Record your ideas that would help lessen any negative impacts of major events on the area or suggestions on how to increase the positive impacts.
- If a major event is happening in the area and you don't notice an impact, record that too! Is there a particular reason there was no noticeable impact?

Your summer homework assignment is due **August 30, 2019**. Send your ideas, notes, and photos to **keith.folkersen@saskatoon.ca**. For more information about the Exhibition LAP, please visit **saskatoon.ca/lap**.

Remember that we want to hear about both the positive & negative impacts of local major events!
