9.15	Neighbourhood Safety Upgrade Street Name Signs	That when the Infrastructure Services Department examine the feasibility of a Capital Budget project in Pleasant Hill to replace existing sign plates with larger sign plates (Pleasant Hill Safety Audit Report, Rec. 6.2.1), that they also include Riversdale in the examination.	Completed	100 %	This recommendation was created in order to examine the feasibility of replacing existing street sign plates with larger sign plates. The Transportation and Utilities Department (formerly Infrastructure Services) reviewed the inquiry in conjunction with a similar request from the Pleasant Hill Safety Report. This request was denied by the Transportation Division. Having different sized street signs across the city is not feasible as it is not cost effective and has an impact on the standardization of manufacturing, printing, and maintenance of the street signs. This will also include the Riversdale neighbourhood. Therefore, this recommendation is considered closed.
